ANNOUNCES RESIDENTIAL

# MANAGEMENT DEVELOPMENT PROGRAM ON GST-CHALLENGES AND PROBLEM SOLVING

OCT 20-23, 2019 at GOA

#### INTRODUCTION

The Government has implemented the country's most ambitious indirect tax reform i.e. Goods and Services Tax from 1st July 2017. Goods & Services Tax (GST) is a comprehensive destination based indirect tax levied on goods as well as services at the national level. Its main objective is to consolidate multiple indirect tax levies into a single tax thus subsuming number of indirect tax levies, overcoming the limitations of previous indirect tax structure, and creating efficiencies in tax administration.

The GST domain includes varied concepts from registration, payment, returns, refunds, classification and valuation, place and time of supply, input/output credit, and compliance system with respect to e-way bill mechanism along with various other new concepts. GST is an opposite tribute to spirit of cooperative federalism and binds India into an Economic Union upholding the Government of India's motto of 'One Nation One Tax'.

For better administration of new tax regime in the country, it is important to have more competent and skilled professionals to facilitate regulators to ensure effective compliance of GST. With a view to enable the officials to understand the fundamentals of GST, NPC has introduced the Residential Training Program on GST Challenges and Problem Solving. The objective of this Program is to enhance the knowledge and applicability understanding of GST.

#### EXPECTED OUTCOME

- To comprehend the basics of GST, Important Terminologies and Concepts
- To Gain the insight on the Applicability and Impact.
- To provide specialized and updated knowledge in the area of GST in a systematic manner
- To increase the knowledge on the recording and analyzing the transactions for compliance under GST
- To Enhance analytical and problem solving skills for decision making.

#### PROGRAM COVERAGE

- GST Background, its Basic Principles, Issues & Challenges
